making dreams come true

you can't go wrong With Laser creations!

Laser engraving

We are striving towards recognition as the best laser cutting company in Centurion. In order to achieve this, we offer great prices, efficient service and fast delivery times. We are available to businesses and individuals and we can laser cut wood, plastic, fabric, paper and various other soft materials.

Laser Creations can also assist with all wedding stationery including invitations, menus, tables, names or numbers, seating plans, cake toppers, etc. The results achieved through laser cutting these items means that we can provide unique, intricate designs that will be remembered by wedding guests. We are available for small once off orders and large quantity repeat work. We try not turn away work and will do our very best to accommodate everyone.

Our maximum cutting size is 1250 x 850 and our lead time on most jobs is 4-5 days and on larger jobs, 5-7 days. Please check lead time with us when enquiring and placing orders to ensure there is no disappointment.

Most of our work is price off custom requests and we can therefore cut most items required. While we have our specialties, don't look at them and think your work is not suited to us. We do really well with all requests and will gladly refer you to someone else if we cannot assist.

electronic/robotic Lab

Robotic and electronic program aimed at implementing technology enhanced learning in classrooms and various other training opportunities.

It aims to promote robotics as a tool for application concepts learnt by students in using STEM (science, technology, engineering and Mathematics) integration by creating multiple intelligence based learning.

It provides an opportunity to rediscover and redesign learning by engaging in an inquiry based approach to collaborate and be creative in solving challenges.

making dreams come true

embroidery

We have our own industrial embroidery equipment, which enable us to deliver to the highest quality standards and true to our mission we are linked with various accredited entrepreneurial ventures that will ensure capacity and quality control. No middle man, you deal directly with the Makers Lab. Just another way we ensure that you are completely satisfied with the end result.

We have a passion for quality and delivering on our promises, on time. With extensive experience in the marketing industry, we have the necessary knowledge and expertise to ensure that we deliver products that fit right into your marketing objectives. Whether you have a large corporate order, or a small personal one - your complete satisfaction truly matters to us.

making dreams come true

Fineart

Exploring the creative potential of a wide range of media. Fine Art can be combined with other art and handcrafted as well as CNC manufactured products. Use our in-house artist to create every product uniquely.

making dreams come true

Ceramic Studio

Ceramic Craft Studio specialises in ceramics, mosaic, decoupage, and other arts and crafts media as well as craft lessons.

We provide ceramics studio spaces and open access to professional and amateur ceramics artists and designers.

We run firing service facility, weekly evening and weekend ceramics and pottery classes and we do commissions. The studio is owned and run by the Markets Foundation.

making dreams come true

steel WORKSHOP

Our Steel Workshop has gone from strength to strength.

With the addition of a big supply chain contact to provide artifacts and furniture, The Steel Workshop has become sustainable in it's own right.

Potential customers can send through ideas and our team of designers and crafters will produce your requested order.

making dreams come true

GLASS STUDIO

The glass studio offers a variety of glassware. It specialises in sandblasting (frothing) a large selection of glass objects from mirrors to tableware to all kinds of drinking glasses.

Ready made pieces can be purchased from our shop. We also have unique slumped glass items for sale in our shop.

The glass studio also takes orders for personalised glass objects. The majority of our customers come from corporate companies or the hotel industry.

In addition we cater for smaller orders for celebrations such as weddings, anniversaries and sporting events and we can also supply trophies.

making dreams come true

WOOD WORKSHOP

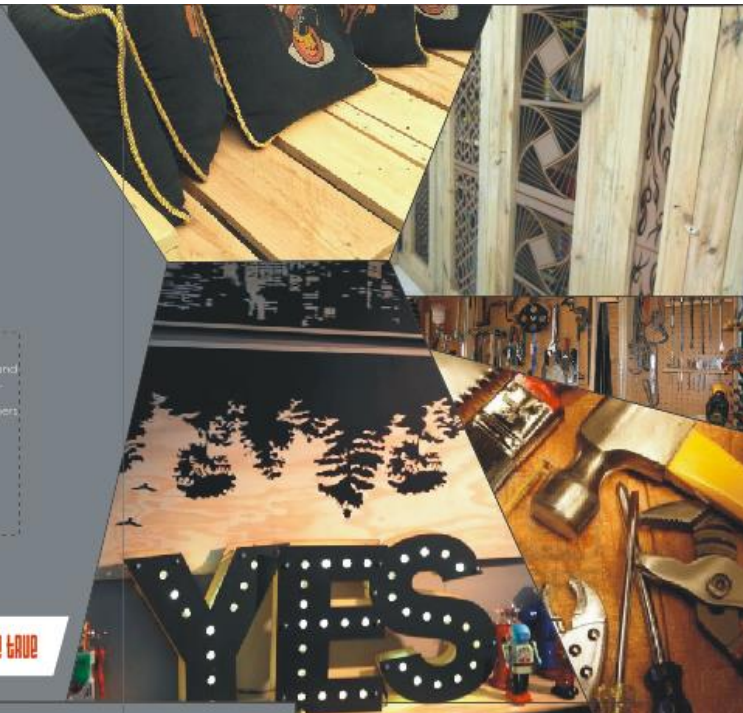

Our Wood Workshop has gone from strength to strength.

With the addition of a big supply chain contact to provide artifacts and furniture, The Steel Workshop has become sustainable in it's own right.

CREATIVE TOURISM

RELIVE THE HISTORY

Why use Creative Tourism?

Combining marketing efforts for regional businesses that promote the uniqueness of our country and creative potential through active participation through food, art and creative activities. The creative tourism initiative aims at promoting local tourism in a socially sustainable manner.

By stimulating the creative industries from outside, the local economy improves beyond the profits from tourism. Travel directed towards an engaged and authentic experience, with participative learning in the arts, heritage, or product knowledge of a place, and it provides a connection with those who reside in the place and create that experience.

It will further offer visitors the opportunity to develop their creative potential through active participation in creative and learning experiences which are characteristic of the history destination where they are undertaken. Let's create our own history and tourism experience together!

Economic and social benefits

- Revived of local crafts, traditions, music, costumes, food and heritage.
- Revived pride of the local population in their culture and heritage.
- Revival of local crafts and traditions.
- Generation of creative jobs and crafts.
- Generation of jobs and income in creative industries.
- Directly and indirect effects.
- Increased demand for services of the destination.
- Cultural heritage preservation (itinerary and activities).

Integrating conservation and education of cultural heritage in the broader of community development, education and tourism, as well as increasing accessibility and knowledge, can be helpful in strengthening tourism communities on the importance of cultural heritage sustainability.
